How does a scientist and a theologian engage with some of the big questions raised by the pandemic?

What have we been learning about what it means to be 'led by the science', the vulnerability of humans to the natural world, and where is God in all of this?

The pandemic has focused questions in the relationship of science and theology which are both helpful and challenging.

**David Wilkinson** is Principal of St John's College and a Professor of Theology at Durham University. He has PhDs in astrophysics and systematic theology and is a regular contributor to BBC Radio 4 Thought for the Day.
